

Accessory Dwelling Unit (ADU) Integrated

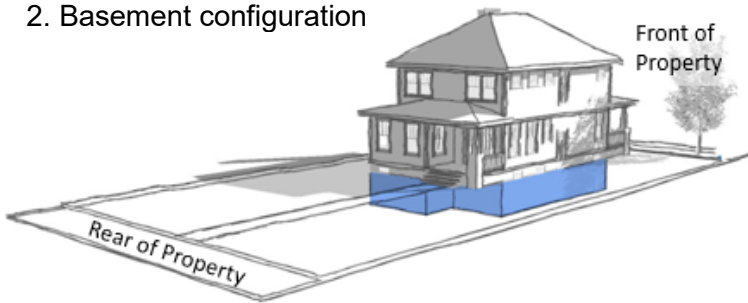

*Attached to the principal unit by a shared wall or a basement or upper floor.
ADUs are comprised of one or more rooms forming a single habitable area with a full kitchen and bathroom.*

Potential Configurations:

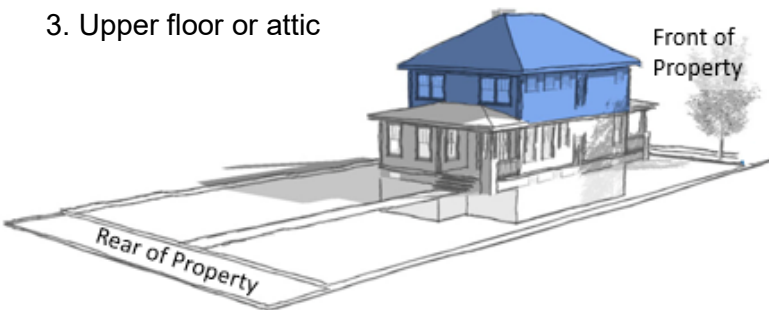

1. Attached to the principal structure

2. Basement configuration

3. Upper floor or attic

Other configurations may be considered, but cannot be detached from the principal structure

- **Zone Districts Allowed:** (Requires approval of a Conditional Use through City Planning Commission) R-E, R1-9, R1-6
- Occupancy must comply with municipal code, including any limitations imposed by the fire and building codes
- **Utilities:** May be connected to the same system
- **Owner Occupancy:** Required. Property owner may live in either the principal unit or ADU
- **Minimum Lot Size (sqft):**

R	R-1 9000	R-1 6000
20,000	9,000	6,000

- **Parking:** 2 off street spaces (1 per unit). May be located in a garage or driveway
- **Maximum Height (ft):**

R	R-1 9000	R-1 6000
30'	30'	30'

- **Unit Size (sqft):** Up to 50% of the of the gross floor area of the principle structure
- **Setbacks:** Same as principal structure in the zone district
- **Connection:** Not required.
- **Architecture:** Must be compatible with the existing structure. One-hour fire-rated assemblies between units will be required. Retrofitting of existing home may be necessary.
- **Access:** Exterior access is not required, but must be located to the side or rear if provided. If provided, a 36-inch wide clear access path is necessary from the front property line. Exterior access to an upper floor unit must be from a deck.
- **Documents Required:**
 - Covenant: Requiring property owner occupancy for at least 185-days a year
 - Covenant: Prohibiting subdivision and separate sale of ADU
